

# LINK PROJECTION SYSTEM-II

Designed for computer classrooms so instructors can send what is on their display directly to the students' monitors in real-time—no delays in transmission. Press one button and instantly your presentation is on the student monitor. Instantly blank all trainee monitors so you have their immediate attention. Send your laptop display directly to the students' screens too.

**Quick and easy to use — no software to install and no training required.**

## SHOW, DEMONSTRATE & INSTRUCT

### Broadcast to All Monitors

Send your instructor's screen to the whole class. Your class sees your presentation right on their screen in front of them. This really keeps the students on task and eliminates any computer distractions.

### Document Camera/Any Input Show All

Send your document camera image directly to your classes monitors. While you are demonstrating a procedure they can follow along at their desk. They will see a crisp and clear view of your demonstration.

### Dual Monitor Control

Supports Single and Dual monitors. Broadcast the instructor's screen to all students' dual monitors in full motion, real-time video.

**"Now with the LINK System the students can see the image right in front of their eyes. It is great!!!"**  
- Southern Illinois University

## GAIN YOUR CLASSES ATTENTION

### Blank All Screens

Gain your classes attention by instantly projecting a black screen to their monitors. This works great during an oral presentation.

### Clear All Screens

Returns all trainee screens back to their local screens.

#### Instructor

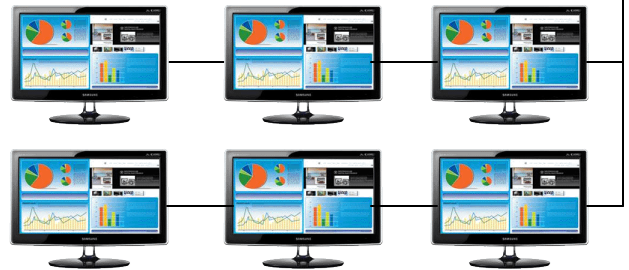

### Blank all trainee screens

#### Instructor

### Broadcast to All Student Monitors

## MULTIMEDIA FRIENDLY

### 2nd Source Ready (Auxiliary Input Included)

The LPS-II system provides the instructor with a 2nd input source. This allows the input for a second PC, laptop, a document camera, a microscope, a camera, etc. The instructor may broadcast any of these sources to the students' screens.

### Broadcast Multimedia to All

Broadcast a DVD, an online video, recorded lesson, or any multimedia to your students' screens in real-time full motion video. Supports high-end resolutions and rich based multimedia applications including animation and CAD software.

#### Auxiliary Input— Instructor's Laptop

### Project laptop image to all trainee PCs

## USER-FRIENDLY CONSOLE

The LPS-II is truly a plug and play system. It is so easy to connect that anyone can install it and begin using it immediately. The LPS Instructor equipment connects to the instructor's monitor. Each student monitor connects to a small LPS interface box. The units are connected together by a flexible DB9 custom-cut cable to match your classroom arrangement.

- 100% HARDWARE BASED
- USES NO NETWORK RESOURCES
- NO SOFTWARE TO INSTALL

**" In the two and a half years of operating three classrooms with the LPS, we've never experienced any problems or failures. I would never setup another computer-equipped classroom without a LINK System."**

**-Zollars  
Southwest Airlines**

**"I like the LPS because of its simplicity and functionality. It fit my budget perfectly."**  
**- JEGS**

**"Technical support has been very helpful. You guys have done right by me."**  
**- NCC Institute**

## BROADCAST AUDIO

### Optional Audio Sharing

The LPS-II can be equipped with our 'broadcast all' audio system. This allows the instructor to send both his video and audio simultaneously to all the students. The instructor can send his PC audio to the students or use his microphone and send his voice to all the students' headsets. You may add our audio feature to your LPS-II anytime.

## ON-SCREEN ANNOTATION STYLUS

### Optional LINK Stylus Software

Powerful and easy to use on-screen annotation tool. Easily write over any application that is active on your screen. Circle areas of special importance during a lesson, write notes on the screen with an array of colors. Place special emphasis by inserting bullets and arrows. Highlight key terms for tests.

## WARRANTY & SUPPORT

### Toll-free Support

The LPS-II comes standard with a one (1) year warranty on all parts and labor repaired at ACS facilities. Toll-free technical support is provided at no additional cost for as long as you own the system. Direct support and warranty from the manufacturer.

- EASY TO USE— NO TRAINING REQUIRED
- SUPPORTS RICH MEDIA APPLICATIONS
  - Computer Aided Design (CAD)
  - Simulation & Animation Software
  - DVD, Media, Videos, etc.
- FULL-MOTION, REAL-TIME VIDEO BROADCAST

**Applied Computer Systems, Inc. (ACS)** has been in business since 1971 providing computer classroom management systems. ACS has more than 40 years of experience designing, engineering and selling computer classroom management systems to corporations, universities, community colleges, government entities, military and the K-12 sector. ACS provides superior customer service. We are your one-source with all the experience and knowledge for computer classroom management. You will find we are easy to work with and we treat every customer as if they were our first.
