LINK Stylus

Annotation software — add pizzazz to your presentations!

Operation—Simple as 1-2-3!

The LINK Stylus is a powerful and easy to use annotation tool. It allows you to create effective presentations by adding additional clarity and illumination to your communications, presentations, training, and classroom teaching.

The LINK Stylus software is simply installed on your computer. It can be used independently or in conjunction with any LINK System, whiteboard, or projection system. It is a straightforward easy-to-use program.

LINK Stylus Features

Add Pizzazz to Your Lesson
Insert arrows and bullets to draw attention to areas of interest.

Circle, Underline & Highlight
Call attention to important details to grab your audiences' interest.

Draw, Save & Print
Use a variety of colors and widths.
Add notes on-the-fly as you instruct, then save and print them for future reference.

Flashlight Mode
Instantly black out the screen and only display areas of interest with our flashlight mode.

Erase
Need to remove a bullet or any illustration you made to the screen—simply use the eraser and the unwanted illustrations are removed.
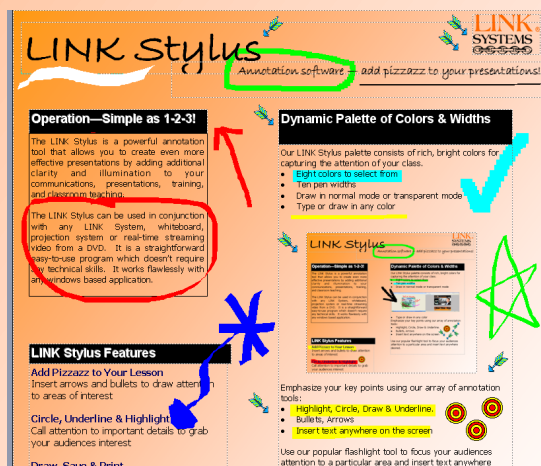

Dynamic Palette of Colors & Widths

Our LINK Stylus palette consists of rich, vibrant colors for capturing the attention of your trainees.

- **Selection of eight bright colors**
- **Highlight, Transparent & Fill mode**
- **Write anywhere on your screen**

Emphasize your key points using our array of annotation tools:

- **Circle, Draw & Underline**
- **Bullets & Directional Arrows**
- **Insert text anywhere on the screen**

When you are finished annotating your document you may save it for future use or clear all your comments by selecting the 'clear drawing' command from our LINK Stylus menu.
